SYDNEY AUSTRALIA

18 - 21 MARCH 2020

Fact & Fallacy in Urogynaecology

UGSA Welcome

The Urogynaecological Society of Australasia Organising Committee is thrilled to invite you to spectacular Sydney for our 2020 Annual & Scientific Meeting.

Set on picturesque Darling Harbour at the Australian National Maritime Museum, delegates will enjoy panoramic harbour views; luxurious Sydney glamour and award winning dining experiences.

The focus for the 2020 Urogynaecological Society of Australasia ASM, 'Fact and Fallacy in Urogynaecology' analyses the current evidence across multiple aspects of pelvic floor dysfunction and looks at the development of best practice guidelines for both conservative and surgical treatment options.

We have input from three vastly experienced international urogynaecologists Prof Gunnar Lose from Copenhagen University, Dr Becky Rogers from Austin University Texas and Dr Charbel Salamon from Atlantic Health USA; plus dozens of local experts. Our workshops this year are based largely on acquiring practical skills in intermediate and complex laparoscopy, cystoscopy techniques and vaginal surgery.

We look forward to welcoming you to the UGSA ASM at the Maritime Museum on Sydney's Harbourside. This is a beautiful venue and a great opportunity for a few days break in Sydney.

And we guarantee you will know more when you leave than when you arrived!

Dr Jenny King
ASM Chair

Dr Lucy Bates
ASM Co-Chair

A/Prof Emmanuel Karantanis
ASM Co-Chair

International Speakers

Professor Gunnar Lose
(Denmark)

Dr Charbel Salamon
(USA)

Dr Rebecca G Rogers
