THE PAIN?

Doctors Lose Millions By Inefficiently Running Healthcare Businesses. This Impacts The Business, The Community & The Person

They Are Not A CEO

Doctors who start healthcare businesses generally remain as doctors in their business to ensure cash flow

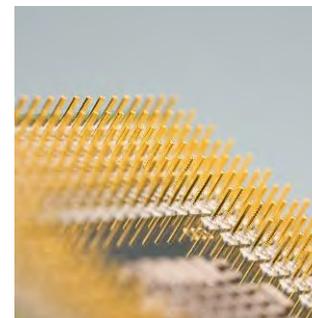

They Are Not A CFO

When the majority of their time is being a clinician, they don't focus on financial strategies

They Are Not A CTO

They see technology as an expense and not a tool to drive growth, increase opportunities or reduce costs

They Are Not A Lawyer

Generally speaking, they make solo legal decisions with poor outcomes such as contract management

They Don't Do HR

Managing staff, different personalities & creating culture requires skill & time which they do not have

THE SOLUTION

We provide:

- A data platform to read your business, clinical & patient data
- Reports, dashboards, tools, alerts based on our proprietary algorithms
- Machine learning & big data to benchmark the health of your business against others
- Connecting you to an online A-Team of healthcare partners & C-Level executives for support & consulting services
- AI & machine learning to study the data & provide clinical, as well as business recommendations

An online platform delivering decision support tools, backed by data & connecting you to a 'best in class' online partner network
